B-Series
HPS5000
Professional Steam Cleaner

www.tornadosteamer.com

Today, the standard of cleaning has changed dramatically and the demand for a perfect cleaning machine has never been this high.

Introducing the new staple in cleaning

HPS5000 *B-Series* Professional Steam Cleaner

Perfect for day to day professional use or just casual home cleaning, HPS5000 B-Series is the best steam cleaner for you.

Machine Highlights:

5 Bars, max pressure for maximum intensity and power for that extra level of cleaning
Can also clean delicate items by switching to low steam control setting

9 Different steam heads if not most in the market

Boiler

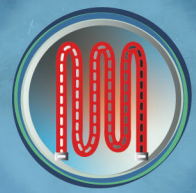

Tornado Steamer has always been proud of its industrial grade steam boiler.

Made of stainless steel 304

3 layers of insulation

Re-engineered heater design

Refill anytime design

All these factors adding up for the perfect efficiency and longevity. Boiler is the heart and soul of any steam cleaner, so these superb attributes complete the package.

Quick Specification:

- Power: 1800W * 220V * 50/60hz * 1phase
- Water Tank Capacity: 1.2 liters
